

Rx

HOW TO USE YOUR PRESCRIPTION BENEFITS

Your out-of-pocket costs will vary by pharmacy location, prescription quantity, and dosages. Always use the Redirect Health Member App to show your up-to-date information to your pharmacist. Not adding your ID information at the pharmacy could result in higher out-of-pocket costs, so please follow these steps.

1

Start with the Redirect Health Member App

Download at
RedirectHealth.com/app

2

Click on your membership card to view your ID

3

Present your ID card to the pharmacist so they add your Redirect Health information

Don't see your medication? There may be another option, or maybe your prescription goes by another name. Just contact us in the Redirect Health Member App so we can look into this for you.

Please note:

*Medications that are "100% Member Responsibility" are considered "Non-Formulary" and do not count towards your max-out-of-pocket calculation.

Using your Prescription Benefit is easy. To receive the member responsibility listed below (or even lower) make sure you show your Redirect Health* Membership ID Card found on the Redirect Health Member App (RedirectHealth.com/app). Failing to present your Membership Card will likely lead to a higher charge at the pharmacy. If you don't see your medication, ask us. Prescription benefit includes many more medications and it's possible your drug goes by another name.

*Member responsibility may be higher or lower depending on pharmacy location, quantity, or dosage. Always use the Redirect Health Member App to get the lowest price. Prescriptions with "100% Member Responsibility" are considered "NonFormulary" and do not apply towards your max-out-of-pocket calculation.

For Formulary and Non-Formulary medications - you should rarely pay more than the Member responsibility below or the Redirect Health discounted cost when you use the Redirect Health Member App (RedirectHealth.com/app).

Using your Prescription Benefit is easy. To receive the member responsibility listed below (or even lower) make sure you show your Redirect Health* Membership ID Card found on the Redirect Health Member App (RedirectHealth.com/app). Failing to present your Membership Card will likely lead to a higher charge at the pharmacy. If you don't see your medication, ask us. Prescription benefit includes many more medications and it's possible your drug goes by another name.

*Member responsibility may be higher or lower depending on pharmacy location, quantity, or dosage. Always use the Redirect Health Member App to get the lowest price. Prescriptions with "100% Member Responsibility" are considered "NonFormulary" and do not apply towards your max-out-of-pocket calculation.

For Formulary and Non-Formulary medications - you should rarely pay more than the Member responsibility below or the Redirect Health discounted cost when you use the Redirect Health Member App (RedirectHealth.com/app).

Using your Prescription Benefit is easy. To receive the member responsibility listed below (or even lower) make sure you show your Redirect Health® Membership ID Card found on the Redirect Health Member App (RedirectHealth.com/app). Failing to present your Membership Card will likely lead to a higher charge at the pharmacy. If you don't see your medication, ask us. Prescription benefit includes many more medications and it's possible your drug goes by another name.

*Member responsibility may be higher or lower depending on pharmacy location, quantity, or dosage. Always use the Redirect Health Member App to get the lowest price. Prescriptions with "100% Member Responsibility" are considered "NonFormulary" and do not apply towards your max-out-of-pocket calculation.

For Formulary and Non-Formulary medications - you should rarely pay more than the Member responsibility below or the Redirect Health discounted cost when you use the Redirect Health Member App (RedirectHealth.com/app).
